

# Module 2

## Chapter 1 notes

# Example of Prompting

- **Basic Prompt:**

"Write a story for me." ChatGPT will promptly write a story, but it might be generic.

- **Specific Prompt:**

"I want you to act as a storyteller. Come up with entertaining, educational stories for my bedtime that are engaging and imaginative, teaching me a life lesson. I am a 21-year-old Indian boy interested in business, tech, and personal growth. Write it in Hinglish." This prompt leads to a more tailored and magical response.

# Must Know About GPT's

- **Chat Continuity:**

You don't have to be detailed every time; AI remembers the conversation thread until you exceed the token limit.

- **Token Limit:**

These AI systems have limited memory, like humans, and can make informed decisions based on past experiences and data quickly. Most current AIs, like Chat GPT and Google Bard, fall into this category.

- **Self-Awareness:**

The most advanced and potentially dangerous type is self-aware AI, which would possess its own consciousness and operate independently.

- **Foundation of Interaction:**

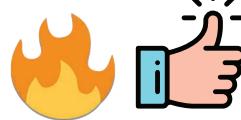

This type of AI, when it attains social intelligence and begins to understand emotions, moves into the realm of 'Theory of Mind'. It predicts behaviour by understanding human intentions.

# Effective Communication with AI:

- **Importance of Specificity:** The more specific and precise the prompt, the more accurate and relevant the AI's response.
- **Prompting Techniques:** Understanding how to craft effective prompts is key to getting the most out of AI interactions.
- **Chat Continuity and Token Limit:** AI remembers the conversation until the token limit is reached, after which it forgets the older context.
- **Beyond Basic Use:** The goal is to understand and utilize AI tools beyond just task automation, focusing on fundamental understanding for increased productivity.
- **Foundational Skill:** Mastering the art of prompting is crucial for effective AI interaction.

# FREE STUDY MATERIAL

Need some more assistance? Now get instant and FREE access to complete CBSE, NCERT and Diksha platform content on our website. No login required! Just go to our website below.

**Past Year Papers:** Previous 10 year papers of all subjects given with Marking Scheme Solutions (2000+ PDFs).

**News:** Latest happenings and updates from CBSE (via Whatsapp)

**Practice:** Free extra questions to practice (Chapter-wise) in PDF

**NCERT:** Complete NCERT content (books, exemplars, other)

**Project Work:** Free Project Solutions for your Periodic assessments

**Sample Papers:** Latest and past years CBSE Sample papers
