

Module 2

Chapter 4 notes

Advanced Prompting Techniques & Real-Life Applications

To deepen conversations with ChatGPT, adding more context is key, but avoid overwhelming it with too much information at once.

- **Task Splitting:** If a prompt is too long, split it into smaller tasks. Tell ChatGPT to summarise the previous answer before moving to the next part, ensuring a smooth and continuous conversation.
- **Clarifying with Follow-Up Questions:** Sometimes, even after providing detailed context, ChatGPT may need more information. Instruct it to ask follow-up questions for better understanding before giving a final answer.
- **Automating Prompt Creation:** Create a new chat named "Prompt Generator" and instruct ChatGPT to generate prompts based on your goals and objectives.

TIP:

Use this framework for prompt generation:

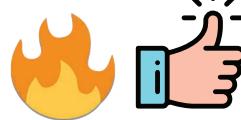

"You are the world's best prompt generating robot. Gather all the information about my goal, objectives and then design a prompt for ChatGPT. Ask follow-up questions until you can produce the best prompt for the best results."

Using AI for Efficiency and Productivity:

- Install the [AIRPM Chrome extension](#) to transform ChatGPT into various roles like writer, story creator, fitness trainer, and more.
- Frameworks collected in the resources section can help in content creation, marketing, and applying psychological principles.

FREE STUDY MATERIAL

Need some more assistance? Now get instant and FREE access to complete CBSE, NCERT and Diksha platform content on our website. No login required! Just go to our website below.

-  **Past Year Papers:** Previous 10 year papers of all subjects given with Marking Scheme Solutions (2000+ PDFs).
-  **News:** Latest happenings and updates from CBSE (via Whatsapp)
-  **Practice:** Free extra questions to practice (Chapter-wise) in PDF
-  **NCERT:** Complete NCERT content (books, exemplars, other)
-  **Project Work:** Free Project Solutions for your Periodic assessments
-  **Sample Papers:** Latest and past years CBSE Sample papers
